Peli Voyager cases for iPhone 6 range and Galaxy S6

FEBRUARY 9, 2016 BY JAY GARRETT

0 COMMENTS

Peli Voyager cases have been announced for the iPhone 6, 6S, 6 Plus, 6S Plus and Samsung Galaxy S6 smartphones.

Joining Peli's existing collection of rugged smartphone cases, these new models offer high-protection to the mobiles of professionals working in exterior environments such as oil&gas platforms, general factories, logistics, transport or in the construction industry. Alternatively, these will also be the perfect companion for the mobiles of passionate fans of extreme sports and outdoor adventures.

Peli Products have lead the way in mission-critical equipment protection and has been trusted by professionals since 1976. I trust my bass amp, pedals and leads to a [Peli backback](#) and it hasn't let me down over the last 3 years of on-tour usage.

The same Peli DNA that has protected military, emergency and scientific equipment through the harshest environments on Earth is now available to protect your mobile phone.

Piero Marigo, Managing Director of Peli EMEA says:

“ Consumers are making a significant investment when they purchase their mobile and that requires a good protection, especially for the ones using it in tough environments. Peli Phone covers are designed to offer the ultimate protection against impacts and drops. The same protection that you would want for yourself, you can get it now for your mobile”

Going on to add

“ Peli will continue to offer relevant innovation in the mobility line to meet the dynamically changing needs of mobile phone users”.

Peli Voyager cases are slender, lightweight, crushproof, dustproof and built with multiple layers of energy-absorbing materials for 360-degree protection.

Tested to Military (MIL-SPEC – 810G) standards, it also features a scratch-resistant screen protector. All models are available in white/grey, black and blue and backed by Peli's Lifetime Guarantee (where applicable by law).
