### Peli Adventurer

Peli's Adventurer case isn't much to look at -- in fact, this thoroughly utilitarian case eschews the varied hues and colours of its more fashionable rivals, and is only available in two shades of see-through grey.

The snap-on case is about as simple as it could be, but does provide good protection thanks to Peli's patented HPX material, which has a soft, easy-grip surface while still being able to survive drops from a height of 1.8m. It's one of the more affordable rugged cases, but there's no screen protector, so you might want to buy that separately for extra peace of mind.
